

State of Iowa, Certificate of Nursery Inspection

This is to Certify that the Growing Nursery Stock and premises of the MOUNT ARBOR NURSERIES, E. S. WELCH, PROP'R., situated in Shenandoah, county of Page, state of Iowa, have been inspected according to the provisions of chapter 53 of the acts of the Twenty-seventh General Assembly, and that no indications have been found of the presence of the San Jose scale or other dangerous insect or plant disease. This certificate is invalid after June 1, 1905,

Certificate No. 21.

Dated July 28, 1904.

TO CUSTOMERS

In presenting our Spring Trade List, I wish to thank our many patrons for the liberal patronage extended us in the past, and assure you all future orders entrusted to us will have the same careful attention as heretofore. With our large and improved packing houses, side track and other facilities we are especially well prepared for handling our business with promptness and dispatch. We have the exposure of stock reduced to the minimum. After digging, all stock is immediately sent to our packing houses where it is graded, packed and handled under cover. Customers may rely upon receiving stock in prime condition.

To those not acquainted with our establishment, this is the thirty-first year of our nursery and the fourteenth year under the present management, during which time the business has more than trebled.

Large assortment of Stock in storage. Shipments made at any time

Everything offered is young, thrifty, well-grown stock and graded to the highest standard.

Write for Special Prices on Quantities of Stock that we have in large supply.

See Page 19 for List of Surplus Scions

LOCATION AND SHIPPING FACILITIES

We are located in southwest Iowa, fifty miles from Omaha on well drained upland and have a fertile soil that cannot be surpassed in the United States. Three railroads (C. B. & Q., Wabash and K & W.) afford competition in freight rates and a rapid and convenient shipping outlet in every direction. Two express companies (Adams and Pacific) also give excellent service.

TERMS AND CONDITIONS

Shipping—Please give shipping directions, whether by freight or express; also route. If no directions are given we will forward to the best of our judgment, without assuming responsibility as all goods travel at purchaser's risk and expense. All freight shipments released to the value of \$5.00 per cwt., unless otherwise instructed. Shipments can generally be made as early in the spring as customers may desire.

Packing—Prices quoted are net, boxing and baling additional, for which we charge to cover cost. Particular care is taken to pack all stock in a thorough manner so that it will reach destination in prime condition.

Terms—Cash or satisfactory security, except we extend the usual terms of credit to known, responsible nurserymen. Orders to be sent C. O. D. should be accompanied by one-fourth cash to receive prompt attention.

Prices—The quotations in this list are for the wholesale trade only and limited to Spring of 1905. Should prices change, either higher or lower, during the season, the price made at time order is accepted and expected to stand.

Rates—Fifty trees, of not less than ten of a variety, will be furnished at hundred rates; three hundred trees of not less than ten of a variety at thousand rates. Long lists of varieties of a few trees of a kind subject to higher prices. All trees above the 3 to 4 foot grades are tied in bundles of ten in grading. Order tens and multiples of tens of a variety as far as possible.

Caution—We accept all orders on the condition that they shall be void should injury befall our stock from frost, hail, fire or other causes over which we have no control.

Grades—We grade carefully, in some cases by caliper, in others, by height. When graded by both caliper and height the caliper must govern.

 Dealers wishing to pack on our grounds will find our facilities first-class and their orders will receive prompt attention.

Claims—All claims for errors and deductions must be made within ten days after receipt of goods.

Guarantee of Genuineness—While we exercise the utmost diligence and care to have our varieties true to name, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove otherwise, or refund the amount paid, it is mutually understood and agreed between the purchaser and ourselves that we shall in no case be liable for any sum greater than the amount originally received for said trees, etc., that prove untrue.

For convenience in telegraphing a code word is given for each grade.

Correspondence and inspection invited.

FRUIT DEPARTMENT

Grade Count—For the benefit of customers we give a grade count of number, size and varieties unsold at this date, of our principal surplus. Customers in ordering should give second choice in varieties and sizes as far as possible, especially if in a hurry for shipment, as we do not substitute or make any changes without permission.

ROOT GRAFTS

We make a specialty of this branch of the business during the winter season, and are especially well equipped for handling it.

Our Grafts are put up by the day (no cheap job work) by old experienced men, who have been in our employ for years and thoroughly understand their business and are interested in our success, making quality, not quantity, their standard. This is the secret of our large trade in this line, as our Grafts grow and give satisfaction.

We have the largest and best stock of Apple Seedlings and Scions we have ever grown, and were never better prepared to furnish Grafts of best quality at low prices.

All Grafts are carefully assorted and only the best of material used in orders, so that customers can depend upon getting a first class article. Orders should be placed early to secure the best selection of varieties and to give the Grafts ample time to callous before shipment. After our Grafts are made they are tied in bundles of 100, each bunch carefully labeled and packed away to callous. Our piece Root Grafts are made with a six-inch Scion and three and one-half inch Root—the same style that we make for our own planting. For Whole Root Grafts we use the entire seedling, either a straight or branched Root as the customer may select. Any style of Graft made to order.
